about the women's leadership program

In 1989 a group of women leaders in our community wanted to provide other women with an overview of the challenges of leadership and an opportunity to develop their leadership skills. Since then more than 500 women have received the valuable training needed to become more effective leaders in their workplaces and in our community. If you would like to increase your sphere of influence, enjoy dialogue with other women in the community and enhance your leadership skills, the **ywca women's leadership program** is for you!

Program sessions

are presented by some of Tucson's finest women leaders who are experts in their field. The program is open to women who wish to develop their leadership skills and grow professionally as well as personally. Each session consists of dinner, a presentation and small group discussions.

The program will run for eight (8) consecutive Tuesdays, 5:15-8:30 p.m., beginning March 4, 2008 and ending April 22, 2008.
